

OLUWASHINA KURE-OJO

Senior Frontend Engineer | React.js | Next.js | TypeScript | Performance Architecture

Nigeria • +234 706 082 5698 • thedevoluwashina@gmail.com
LinkedIn • Portfolio: oluwashina.netlify.app

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years of experience architecting and optimizing frontend systems across fintech, crypto, and SaaS. Specialized in **React, Next.js, TypeScript, and data visualization**, with proven **expertise in performance optimization**, scalable component design, and **cross-functional product delivery**. Adept at building robust design systems, mentoring engineering teams, and translating technical decisions into business outcomes.

CORE SKILLS

Frontend Stack	React.js, Next.js, TypeScript, Vue.js, JavaScript (ES6+), HTML5, CSS3
Architecture	TanStack Query, Recharts, Zustand, Redux, Context API, Performance Optimization
UI & Styling	Tailwind CSS, Materialize, Bootstrap, Mobile-First Responsive Design
Leadership	Technical Mentorship, Agile/Scrum, Code Reviews, Unit Testing (Jest)

PROFESSIONAL EXPERIENCE

- Crop2Cash — *Software Engineer*

Jan 2022 – Jan 2026

 - Mentorship & Leadership:** Spearheaded technical training workshops and mentored junior developers and interns, accelerating team onboarding and improved development velocity.
 - Performance Engineering:** Architected frontend performance overhauls, reducing page load times by **40%** and increased user satisfaction metrics by **50%**.
 - UI/UX Scalability:** Engineered mobile-first, pixel-perfect interfaces that improved user engagement by **40%** and reduced UI-related customer complaints by **60%**.
 - State Management:** Implemented robust state management using Redux and Context API, decreased client-side bug occurrences by **30%**.
 - Quality Assurance:** Drove rigorous testing and debugging strategies, improved product reliability by **25%** and maintained a **4.8/5** user rating.
- Providence Research Limited — *Frontend Engineer*

Jan 2020 – Dec 2021

 - Legacy Migration:** Led the technical transition from legacy frontend structures to Vue.js, significantly improving project scalability and maintainability.
 - System Design:** Designed and implemented a reusable component library, standardizing UI consistency and reducing development time for new features by **35%**.
 - Process Automation:** Automated end-to-end service processes for the Admin portal, reducing manual paperwork by **30%**.
 - Business Impact:** Presented technical product demos to stakeholders and investors, increasing funding confidence by **40%**.
 - Optimization:** Optimized frontend architecture, reducing page load times by **50%** for data-heavy dashboards.

Providence Research Limited — Frontend Engineer Intern

Aug 2019 – Dec 2019

- **Technical Training:** Conducted workshops on software development, leading to a **70%** increase in frontend proficiency among attendees.
- **Reliability:** Introduced unit testing practices using Jest, enhancing software reliability and reducing bugs by **25%**.

FEATURED PROJECTS

Cryzed (Fintech/Crypto)www.cryzed.com

Engineered full-stack user-facing platform and comprehensive admin dashboard for crypto-exchange and bill payment operations using **Next.js** and **TypeScript**. Built transaction management interfaces for **crypto trades, giftcards, bill payments, deposits, and withdrawals**, handling high-traffic flows with optimized performance and mobile responsiveness.

QuePosts (Directory & Listing Portal)[Live Demo](#)

Designed and built a comprehensive listing portal and admin dashboard using React. Owned the end-to-end delivery from UI architecture to production release.

Rewrd (SaaS Loyalty Platform)getrewrd.com

Built core frontend features for a customer loyalty platform, implementing scalable UI flows for store credit issuance and redemption.

EDUCATION

B.Sc. Computer Science and Engineering — Obafemi Awolowo University

2013 – 2017
